Hi!

I built this cute little guy in Canva, and wanted to see what it would cost for you guys to code it and replace our current site with it (workshopcollective.com). Thinking the boxes would link to our instagram and the bottom would be linked to our email.

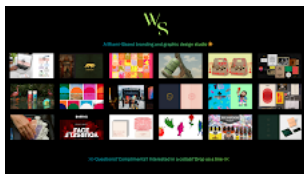

Let me know :)

Hello Lorelle,
Sure, we can take care of that. It'll take us about 4 hours to code and deploy it to the server.
We can get started on this Monday.

This particular website won't need hosting unless you plan to update the content often.
Just let me know if that's something you'd like to do.

Thank you so much

Hello Lorelle,

Good Morning, I hope you are doing well.

Thanks for the reference Video, I think I get what needs to be done in terms of animation

Can you also sent the photos of the projects so I can arrange them and have them on the website.

If you want each image take the click to the actual website we can also do that but if for all the projects the link does not exist we will have to just have the images sit there

I will get the invoice sent over to you soon.

Thank you so much

Hi!

I built this cute little guy in Canva, and wanted to see what it would cost for you guys to code it and replace our current site with it (workshopcollective.com). Thinking the boxes would link to our instagram and the bottom would be linked to our email.

Let me know :)
